

## Guide to Galley copies

**The Club of Rome has drawn up an approximate guide to help the media to find their way through the galleys. Headings, page numbers, etc. in the final version may change.**

**Note: For a brief introduction to the main themes of the Report – consult the Executive Summary in Appendix 1. P.352**

**Preface: What will the future bring? xiii**

## PART 1: INTRODUCTION

<b>I: Worrying about the Future</b>	<b>1</b>
Why Now?	3
Is a Forecast Possible?	4
Why Forty Years?	6
Bases for an Educated Guess	7
Full steam Ahead with a Peaceful Mind	10
<b>2: The Big Issues toward 2052</b>	<b>11</b>
The Sustainability Revolution	12
Five Central Issues – Involving System Change	13
The End of Capitalism?	14
Glimpse 1.1 The Dark Decades: Privilege and Polarisation	15
The End of Economic Growth?	23
Glimpse 2.2: Constraining Asian Consumption	23
The End of Slow Democracy?	30
Glimpse 2.3: Shuffling towards Sustainability	31
The End of Generational Harmony?	36
Glimpse 2.4: Intergenerational War for Equity	36
End of Stable Climate?	40
Glimpse 2.5: Extreme Weather in 2052	43

## PART 2: MY GLOBAL FORECAST

<b>3: The Logic behind My Forecast</b>	<b>51</b>
The Guiding Star	52

A Broad-Brush Picture	52
A Brief Summary of My Story	53
The Deterministic Backbone	54
Linear presentation of a circular maze	55
The Mathematical Formulation	56
A final note in the Data Base	58
<b>4: Population and GDP in 2052</b>	<b>60</b>
Population Will Peak	61
Workforce Will Peak a Little Earlier	63
Productivity Will Grow, but Meet Obstacles	65
Production (GDP) Will Grow, but More and More Slowly	68
Glimpse 4.1: The End of Uneconomic Growth	71
Investments- Forced and Voluntary - Will Increase	76
New costs Will Emerge	79
Box 4.1: What Does It Mean to cost 1 % of GDP	83
Adaptation and Disaster Cost Will Explode	84
The State Will Get More Involved	86
Glimpse 4.2: Light Green Growth	88
Consumption Will Stagnate - and Fall in Some Places	91
<b>5: Energy and CO2 to 2052</b>	<b>97</b>
Energy Efficiency Will Continue to Rise	97
Energy Use Will Grow – but Not Forever	100
Climate Intensity Will Be Reduced by Renewables	101
Glimpse 5.1: The Road to PV	104
Glimpse 5.2: The Death of Nuclear	108
CO2 Emissions from Energy Will Peak in 2030	114
Temperature Increase Will Exceed Plus 2°C	116
Plus 2°C Will Cause Real Difficulties	118
Glimpse 5.3: Troubled Arctic Waters	119
Glimpse 5.4: The Flight to the City	123
<b>6. Food and Footprint to 2052</b>	<b>128</b>
Food Production Will Satisfy Reduced Demand	128
Biofuels and White Meat Will Advance	131
Glimpse 6.1: Expensive Oil = Expensive Food	131
Glimpse 6.2: The Limits to Protein	136
Commercial Fish Stocks Will Be Confined to Regulated Fisheries	137
Planetary Ecosystems Will Suffer	141
Glimpse 6.3: The Race to Lose Last	142
Unused Biocapacity Will Plunge	147
Glimpse 6.4: Urban Mining of Metals	149
Glimpse 6.6: Nature Limited to Parks	154
<b>7: The Nonmaterial Future to 2052</b>	<b>158</b>
Smaller GDP: Milder Push against Global Limits	159

Slower Growth in Productivity	160
Tensions from Declining Consumption	160
Prevalence of Short-Termism	162
Stronger Government	164
Forced Redistribution	165
Megacity Environment	167
Glimpse 7.1: Megacity Living and Externalisation of the Mind	169
Omnipresent Internet	172
Disappearing Charms	173
Better Health	175
Glimpse 7.2: Individual Health from Public Care	176
Armed forces Fighting New Threats	179
Glimpse 7.3: The Future of War and the Rise of Robots	180
Glimpse 7.4: Military for Sustainability	183
<b>8. The Zeitgeist in 2052</b>	<b>188</b>
Fragmentation: More Focus on Local Solutions	188
Glimpse 8.1: Scotland Joins New Europe	189
Glimpse 8.2: The End of Mediterranean Disparity	194
Glimpse 8.3: Slum Urbanism in Africa	198
A new Paradigm: Less Fixation with Economic Growth	201
Glimpse 8.4: Valuing the Whole	203
Modified Capitalism: A Stronger Role for Wise Government	208
Glimpse 8.5: Systemic CSR or CRS 2.0	212
Collective Creativity: A web of Inspired Individuals	216
Glimpse 8.6: Harnessing the Wisdom of the Crowd	216
Glimpse 8.7: Peak Youth Gaming for the Public Good	220
Intergenerational Equity: Widening the Lens	224

## **PART 3: ANALYSIS**

<b>9: Reflections on the Future</b>	<b>227</b>
The Main Drivers	227
The Future in Graphics	229
The Cliff-Hanger	232
My Own Reactions	234
Eight Straight Questions about the Future	237
Wild Cards	248
The Path to 2052	252
Glimpse 9.1: Sudden Rush to Solar	254
Glimpse 9.2: Financing the Future	258
<b>10: Five Regional Futures</b>	<b>263</b>

Towards 2052: The United States	264
Glimpse 10.1: Bright Solar Future	268
Towards 2052: China	272
Glimpse 10.2: China - The New Hegemon	277
Towards 2052: OECD-less-US	281
Towards 2052: BRISE	286
Glimpse XI-3: Rich on Biofuels	290
Towards 2052: Rest of the World	294
<b>11. Comparison with other Futures</b>	<b>298</b>
Testing against a Global Computer Model	298
Comparison with <i>The Limits to Growth</i> studies	299
Overshoot and Collapse in Some Detail	305
Perspectives on the Second Half of the Twenty-First Century	311
Glimpse11.1: The Fifth Cultural Step	312
Glimpse 112: The Third Flowering of the Tree of Life	316
<b>12. What Should You Do?</b>	<b>321</b>
What Global Society Ideally Should Have Done	323
Twenty Pieces of Personal Advice	326
Learn to Live with Impending Disaster without Losing Hope	349
<b>Closing words</b>	<b>351</b>
<b>Appendices</b>	<b>352</b>
<b>1. Summary</b>	<b>352</b>
